

"Road to kmoegle"

v2023-12-18

Concept

I have seen and done a lot of different things in my life as well as in my professional career.

This graph aims to guide you to where I have been, what I did and which of the solutions became my cozy sweet spots.

In IT you have to take decisions and focus on selected topics. I did a lot of and I didn't do even more (obviously).

Please refer to the legend on the left side.

Chart legend

- Sweet spot**
